REMARKS

Applicant has provided replacement sheets for Figures 1-8 and 12-21 to overcome the Examiner's objection that the text is not readable. The text necessary for the understanding of the subject matter sought to be patented is now readable.

In the specification, paragraphs [0065], [0066], [0092], [0108], [0113], [0114], [0115], [0143], [0157] and [0159] were amended to correct minor errors in describing some features in the drawings. No new matter has been added.

Paragraph [0067] was amended to correct a minor editorial issue. No new matter has been added.

Paragraph [0097] was amended to include Applicant's U.S. Patent No. 6,778,994. No new matter has been added.

Applicant has amended the claims to overcome the Examiner's rejection under the second paragraph of 35 USC § 112 due to insufficient antecedent basis for several limitations.

Similarly, Applicant has amended claims 1, 8, 15 and 22 to show the relationship between the profiler and the data mining engine. Support for this amendment is found in paragraph [0067] of the specification.

Applicant has also amended claim 21 to correct a minor editorial error.

In view of the above, Applicant solicits early action in the form of a Notice of Allowance. If it is determined that a telephone conference would expedite the prosecution of this application, the Examiner is invited to telephone the undersigned at the number given below.

In the event that the transmittal letter is separated from this document and the Patent and Trademark Office determines that an extension and/or other relief is required, applicants petition for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing Docket No. 597932000700.

Respectfully submitted,
